

CodeSrijan 2026 Mandatory Guidelines for PPT Presentation

Participants are required to prepare a PowerPoint presentation based on their work using following guidelines

TABLE OF CONTENT

Slide 1: Title Slide (Given In Template)

- Project Name
- Team Name + Members
- Hackathon Name
- One-line tagline (very important)

Slide 2: Introduction and Problem Statement

- What problem are you solving?
- Who faces this problem?
- Why is it important?

(This must sets up impact + originality indirectly)

Slide 3: Your Solution / Proposed Method

- What is your idea?
- How does it solve the problem?
- Key differentiator (subtle innovation highlight)

Slide 4: What Makes It Different?

- Existing solutions (brief)
- Gap in current solutions
- Your unique approach

(This slide quietly covers Innovation & Originality)

Slide 5: Product Demo / Features

- Core features (bullet points)
- Screenshots / demo flow

Slide 6: How It Works (Technical Overview)

- Architecture diagram (simple)
- Tech stack (logos work well)
- APIs / frameworks used

Slide 7: Implementation Highlights

- What actually works (be honest but confident)
- Challenges solved
- Any complex logic / models

(These 2 slides together must map to Technical Implementation)

Slide 8: Real-World Impact

- Who benefits?
- Use cases
- Why it matters

Slide 9: Future Scope / Scalability

- Next features
- Expansion plan
- Business or adoption potential

(These must cover Impact & Viability)

Slide 10: User Experience

- UI screenshots
- Key UX decisions (simplicity, speed, accessibility)
- User flow (1–2 lines)

(This must aligns with UX/UI)

Slide 11: Demo / Live Walkthrough

- Short walkthrough steps
- OR embed demo video

Slide 12: Closing + Q&A

- Strong closing statement
- “We’re solving X by doing Y”
- Thank you
